

Nexor
BUILD

COMPANY PROFILE

WHERE STANDARDS ARE ELEVATED

www.nexorbuild.com

THE NEXOR PHILOSOPHY

At NEXOR, we believe construction is more than delivering projects, it is about defining benchmarks. We operate with a selective approach, choosing projects that align with our values and long-term vision. Every structure we build reflects discipline, refined craftsmanship, and a deep commitment to excellence.

Our difference lies not in the volume of work we undertake, but in the distinction of what we deliver. By prioritizing quality over quantity and long-term impact over short-term gain, we consistently create results that stand apart in a competitive market.

We do not pursue volume we pursue alignment. Every project we undertake is chosen with intention, ensuring it reflects our standards, values, and long-term vision.

At NEXOR, we don't just meet standards we elevate them.

FIT-OUT AND SPECIALISED CONTRACTOR

Nexor Build provides professional fit-out and specialized contracting services to deliver high-quality interior and finishing solutions for commercial and development projects. The company manages all aspects of interior works, ensuring precision, functionality, and aesthetic excellence while meeting project timelines and industry standards.

Our expertise covers complete fit-out execution, including architectural finishes, partitions, ceilings, flooring, joinery, painting, and other specialized interior works. Through experienced teams, reliable project management, and close attention to detail, Nexor Build ensures seamless coordination between all trades and disciplines.

We focus on transforming design concepts into fully functional and visually refined spaces, while maintaining strict quality control, efficient resource management, and adherence to safety requirements. From initial planning and material selection to execution and final handover, we deliver integrated solutions tailored to each project's specific requirements.

STRATEGIC ALLIANCE WITH MASTER

Nexor Build is proud to establish a strategic alliance with Master, a leading Chinese company specializing in Fit-Out and Specialized Contracting solutions. This partnership brings together Master's advanced manufacturing capabilities and technical expertise with Nexor Build's local market knowledge, project management capabilities, and strong presence within the Saudi construction sector.

As part of this strategic alliance, Nexor Build will become the authorized agent and representative of Master in the Western Region of the Kingdom of Saudi Arabia, providing a direct channel for Master's products, solutions, and specialized manufacturing capabilities within one of the Kingdom's key development markets.

Through this collaboration, Nexor Build and Master aim to deliver integrated, high-quality solutions for commercial, residential, hospitality, industrial, and development projects, combining international manufacturing standards with local expertise and project execution capabilities.
